

CALTEX

ENGINEER MAINTENANCE & RELIABILITY

Chevron Lubricants Lanka PLC, the market leader in the local lubricant industry, an employer of choice and part of the global energy giant – Chevron Corporation, USA., has the following vacancy in its Supply Chain team.

The Job Role:

This job entails leading the Maintenance Function and ensuring reliable and efficient operations at our manufacturing plant, finished goods warehouse and Base Oil terminal in compliance with Chevron's Tenants of Operation and ISO Quality requirements. Maintain an injury free Maintenance function by mobilizing both inhouse and external maintenance service providers to carry out routine maintenance activities on plant equipment and instrumentation, ensure robust back up systems are in place to address potential equipment failures, Initiate improvements to increase efficiencies and minimize bottlenecks in key manufacturing work streams, assist Plant Managers in preparation of Capital & Operational Expenditure Budgets and maintain relevant inventories for maintenance works, act as a high consequence scenario owner for identified processes, ensure maintenance teams meet the relevant skill levels to sustain maintenance standards.

Requirements:

- A Degree in Mechanical or Electrical Engineering from a reputed University.
- At least 3 years of prior experience in similar capacity with a reputed organization.
- Knowledge in Computer Based Maintenance Management Systems (CMMS) or other equivalent system.
- Working knowledge of ERP systems such as SAP or equivalent system.
- Possess technical and commercial acumen to respond to needs of multiple stakeholders.
- Demonstrable leadership traits in liaising with hybrid teams, service providers and other subject matter experts.

The position entails a market competitive remuneration package with attractive bonus schemes while offering the suitable candidate an opportunity to work with a giant in the Energy industry leading maintenance operations in a manufacturing plant with a consistent track record of safe and reliable operations.
